

**When a day at the shore detoured his life...
Kessler was there.**

A day at the shore... a fall off a dock... and Ron's life changed forever. Paralyzed by a spinal cord injury, he turned to Kessler, one of the nation's best rehabilitation hospitals.* For more than 55 years, Kessler has helped individuals like Ron overcome complex physical, emotional and social challenges. Kessler's model system for spinal cord injury care - one of only 16 in the country - provided Ron with the proven therapies, advanced research and leading-edge technology he needed. Thanks to his remarkable team of doctors, nurses and therapists, Ron is back pursuing his college degree, keeping up with his active young daughter and hopeful again about his future.

**When a vicious attack shattered his world...
Kessler was there.**

A vicious assault... a devastating brain injury... and Billy's life turned upside down. Struggling to walk, speak and even remember the most basic information, he came to Kessler, one of the nation's best rehabilitation hospitals.* For more than 55 years, Kessler has helped individuals like Billy overcome complex physical, cognitive and emotional challenges. Kessler provided the proven therapies, advanced research and leading-edge technology Billy needed to accelerate his recovery. Thanks to his remarkable team of doctors, nurses and therapists, Billy is back working in New York City's demanding financial community, rebuilding both his career and his life.
